

The logo for MNP LLP, consisting of the letters "MNP" in a large, bold, green font, with "LLP" in a smaller, green font to the right.

Proud Title Sponsors of the Olds Summer Synergy Event

At MNP, we know agriculture is more than your livelihood, it's your life.

Supporting youth development in agriculture is a very important initiative to ensure the long-term success and sustainability of this very vital industry. We commend Olds Regional Exhibition for their continued support and all the work they do.

Agriculture is one of Canada's core industries and why we continue to invest more time and resources into understanding agriculture than any other accounting or business consulting firm in Canada. Living and working in your community, our Ag specialists have deep roots in the industry. Some come from family farm backgrounds, while others continue to operate a farm of their own; all are extremely passionate about agriculture and the farmers and producers we serve. As proud supporters to the beef industry, we keep a pulse on the concerns and opportunities that matter to you by regularly attending conferences, hosting speaking engagements and participating on the boards and advisory committees.

At MNP we want to learn more about you and your farm. If there is anything we can do to support you or help you get more from your operation, don't hesitate to contact one of our dedicated Agricultural Business Advisors or go to www.mnp.ca
